**To the General Director of
LEONARDA-SERVICE LLC
A.V.Rezvov**

Response to the request for
consideration of the application (List)

Dear Andrey Vladimirovich!

The State budgetary institution of the City of Moscow, the Moscow Innovation Agency, has reviewed the application of LEONARDA-SERVICE LLC for the inclusion of products in the List of innovative, High-tech products and Technologies (hereinafter - the List).

In accordance with the order of the Department of Science, Industrial Policy and Entrepreneurship of the City of Moscow "On the formation and maintenance of a List of innovative, high-tech products and technologies" dated 07/20/2016 No. P-18-12-154/7 (hereinafter referred to as the Order) The Commission for the Definition of Innovative, high-tech Products and Technologies used in Urban Sectors (hereinafter referred to as the Commission) makes decisions:

— compliance of products/technologies with one or more criteria for each of the Criteria for classifying products as innovative, high-tech products and technologies (hereinafter - Criteria) approved by Appendix 3 to the Order;

- on the inclusion of products/technologies in the List.

On July 10, 2017, the Commission made a decision on compliance with the Criteria and inclusion in the List of products:

- «Medical tubular compression woolen bandage containing camel hair for the lower extremities»;

- «Medical tubular compression woolen bandage containing camel hair for pelvic organs».
