**To the General Director of
LEONARDA-SERVICE LLC
A.V.Rezvov**

Response to the request for
consideration of the application (List)

Dear Andrey Vladimirovich!

The State budgetary institution of the City of Moscow, the Moscow Innovation Agency, has reviewed the application of LEONARDA-SERVICE LLC for the inclusion of products in the List of innovative, High-tech products and Technologies (hereinafter - the List).

The decision on inclusion, exclusion and refusal to be included in the List is made by the Commission for the Definition of Innovative, High-tech Products and Technologies Used in Urban Sectors (hereinafter referred to as the Commission). The Commission consists of representatives of the executive authorities of the city of Moscow.

On May 13, 2020, the Commission decided on compliance with the Criteria for classifying products as innovative, high-tech products and technologies and inclusion in the List of products: "Elastic medical bandage, tape, perforated". Additionally, we inform you that the period of the product's stay in the List is no more than three years from the date of inclusion. The provision of false information, misleading information, entails the exclusion of the product from the List. If products with the best technical characteristics are identified on the market, the Commission may be asked to update the relevant characteristics of the included product. At the same time, the compliance of the product with the customer's requirements, technical and regulatory documentation is confirmed by certificates, patents, permits, test reports, etc. as part of the implementation of procurement procedures.
